## GUARDIANS OF THE TIDES

It's that time of the year again – sea turtle nesting season! As Beaches Energy and the Beaches Sea Turtle Patrol spring into action to safeguard hatchlings, there are several ways you can lend a hand.

### 1 GET YOUR HOME READY

For those residing by the beach, ensure your home's lights are shielded – try to opt for lower-wattage bulbs to prevent disorienting hatchlings.

### 2 ENJOY BEACH DAYS RESPONSIBLY

Minimize unnecessary light, noise or activity on the beach, especially during the night when nests and hatchlings are less visible.

### 3 MAINTAIN CLEAN BEACHES

Help preserve nesting areas by clearing away litter, filling in holes and flattening sandcastles before departing.

### 4 RESPECT THE SILENCE

Refrain from walking or biking on beach dunes and disturbing sea turtle tracks, eggs, adults or hatchlings.
