# LOVE OUR LINEMEN

The dedicated linemen at Beaches Energy work hard to bring you reliable power, even in the worst weather conditions. And their commitment to our communities doesn't stop there. When disaster hits, they hit the road—bringing the spirit of the Beaches to neighborhoods across the country that need it most. Just like they did in South Carolina in the aftermath of Hurricane Helene.

*If you see a lineman, be sure to show them a little love.*

## POWERED BY COMMUNITY CARE

Did you know Beaches Energy has support services available for neighbors with disabilities or special needs? It's true!

People with hearing and speech needs can contact us through the Florida Relay Center. The voice line is **800-955-8770**; the TTY (text telephone) is **800-955-8771**.

**NEW!** Customers who need hearing assistance can now visit the Customer Care counter, where a portable countertop induction loop helps hearing aids amplify sound and reduce background noise.

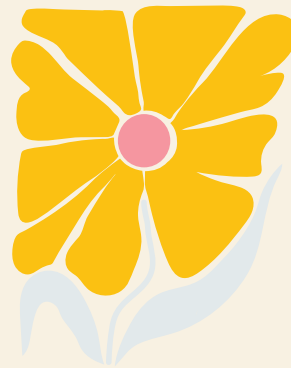

Those who rely on lifesaving electrical medical equipment can register to be notified if a scheduled outage is expected to last an extended period of time.

If you have special needs for evacuation assistance and have no one to help you, pre-register online with Duval County Emergency Preparedness or by calling **904-255-3172**. St. Johns County residents can register online with St. Johns County Emergency Management or call **904-824-5550**.

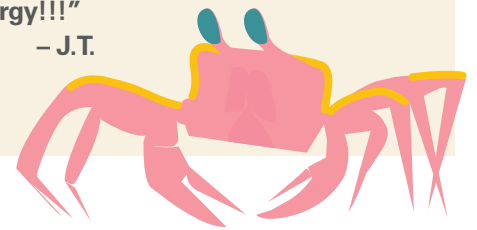

To learn more about the resources available to you or how you can prepare for a weather emergency, visit [BeachesEnergy.com/special-needs](https://www.beachesenergy.com/special-needs)

## CUSTOMER CONNECTIONS

**"Beaches Energy is the best! We have lost power more often in every state we have lived in than here in Florida. And we have lived in 11 states. God bless each and every one of you at Beaches Energy!"**  
— J.H.

**"Your team is the best! So glad we have Beaches Energy!!!"**  
— J.T.
