LEAVING TOWN? POWER DOWN!

Heading out of town for the holidays? Save money and energy while you're away with just a few simple steps to make sure your home stays safe — and efficient.

Adjust your thermostat.

Set your thermostat to 55 - 60°F (or to Auto) to save energy while you're away. When you return, raise the temperature by only two degrees at a time to avoid activating auxiliary heat, which consumes more energy.

Unplug before you go.

Electronics and chargers still draw power when they're plugged in, even if they're turned off.

Turn off water heaters.

Switch to vacation mode or turn them off completely to avoid wasted energy.

Close blinds and curtains.

It keeps heat in during cool days and protects your home from prying eyes while you're gone.

Use smart plugs and timers.

Program a few lights to turn on in the evening for safety without running them all day.

SHARE THE LIGHT, SPREAD THE CHEER

For families facing financial challenges, the holidays can be especially hard. But your kindness can make a world of difference.

When you give to the CARE Program, 100% of your donation helps our neighbors in need pay their utility bills and keep their lights on. Donations can be one-time or monthly, and Beaches Energy will **match your gift dollar-for-dollar**, doubling your impact. Donate or sign up to help at BeachesEnergy.com/CARE

If you're in need of help, **BEAM** offers emergency rent and utility assistance to qualifying residents. Learn more or apply at Jaxbeam.org

COMMUNITY SPOTLIGHT: DECK THE CHAIRS

One of Jax Beach's brightest traditions is back! **Deck the Chairs 2025** is set to light up the Seawalk Pavilion with creative displays and community spirit—all powered by Beaches Energy.

Take an enchanting stroll through the lights, enjoy live entertainment, and celebrate the season with friends and family. See the full event schedule at DeckTheChairs.org
