GEARING UP FOR COMMON OUTAGES

When you think of power outages, you think one thing—storms. But did you know that only accounts for a small number of the calls we respond to? It’s true! Here are a few of the common outages we prepare for:

Wildlife Interference
Birds, squirrels, and other critters often find their way onto (and into) electrical equipment, where they can cause damage. We work to install insulation barriers and coated power lines that help keep animals out and power on in our communities.

Fallen Trees
Everyone loves a beautiful, tree-lined street, but trees leave us at risk of more outages. That’s why we regularly inspect and trim trees in neighborhoods and around high voltage lines to prevent outages and ensure safe conditions for everyone.

Equipment Failure
It’s no secret equipment breaks and wears out over time. We regularly conduct infrared scans and drone inspections to keep an eye on equipment, make proactive repairs, and prevent unexpected power failures.

CARE FOR EVERY CUSTOMER

Beaches Energy works with the **Florida Relay Center** to give hearing- and speech-impaired customers a better way to reach out to our Customer Care team. The voice line is 800-955-8770 and TTY (text telephone) is available at 800-955-8771.

HEAR FROM A LINEMAN

“Our goal is to keep the community powered. If you guys ever experience an outage or a downed power line, don’t hesitate to call us. We’ll get crews out there as quick as possible.”

Melvin Mercado
Journey Lineman

ELECTRIC PRICE FOR 1,000 KILOWATT-HOURS

Rate Component	January	February
Residential Base Charge	\$4.50	\$4.50
kWh Base Charge	\$91.24	\$91.24
Bulk Power Cost Adjustment	\$24.05	\$24.05
Total Rate Billed per 1,000 kWh	\$119.79	\$119.79
